Enviromentally Responsible Paper

We are committed to minimising our impact on the environment. This report is printed on Tudor RP, an environmentally responsible paper.

Tudor RP is FSC Recycled Certified and Australian made. It contains 100% pre and post-consumer waste fibre sourced from printers' waste, converted waste and office waste. No chlorine bleaching occurs in the recycling process. Australian Paper is ISO 14001 certified.

By selecting Tudor RP a donation has been made to Landcare Australia.

We’ve also used organic vegetable based inks. Organic inks circumvent the hazardous effects of the solvents in conventional inks. Organic inks are highly environmental friendly inks such as linseed, canola or soy instead of petroleum based oils. Vegetable based inks are renewable sources and are biodegradable. Organic inks send little or no volatile organic compounds into the air and produce less toxic waste.
